

Key Takeaways

*The EPA's Clean Ports Program means **investing in our people** and our island community.*

*We must have a **shared vision** for tackling aging infrastructure and preparing for climate challenges.*

*There are **technologies and ideas at the ready** to drive and scale clean energy solutions.*

Next Steps

1. **Maintain momentum** through continued collaboration.
2. **Engage in regional actions** for port modernization, energy resilience, innovation and leadership in the Pacific.
3. **Secure funding and policy support** to ensure long-term success and growth.

Hosted by the Port Authority of Guam, the Association of Pacific Port's 112th Annual Conference is set for the summer of 2026!

MARITIME RESILIENCE & INNOVATION SUMMIT

*Si Yu'os ma'åse!
Thank you!*

This activity is funded by the U.S. Environmental Protection Agency under the Clean Ports Grant Program Assistance Agreement, awarded to the Port Authority of Guam.
