## Port E-Advisory No. 22

Please note that a release today from the Guam Homeland Security Joint Information Center indicates that five Customs employees assigned to the Port Authority of Guam Customs Field Office have tested positive for COVID-19.

According to the JIC release "The Customs and Quarantine Agency (CQA) has been notified that five employees have tested positive for COVID-19. The employees were assigned to the Port Authority of Guam (PAG) Customs field office. The Department of Public Health and Social Services (DPHSS) is conducting contact tracing and protocols were put in place for the isolation and quarantine of all those assigned to this office. The office has since been sanitized and disinfected. Officers and administrative support staff have been temporarily reassigned from other sections to ensure continued operations at the port."

The release indicates that contract tracing is being conducted by DPHSS. As such, we have no further information from Customs on what role the employees had at the Port and whether there is any possible exposure to our employees. As such we urge you to continue to monitor your health closely, check in daily with the Port Clinic nurses to have your temperature taken, wear your mask at all times, practice social distancing and good hygiene. We must all be vigilant at all times regardless of whether we have been informed of a potential exposure.

Protect yourself. Protect your coworkers. Protect the Port. Protect our community.

*Si Yu'os Ma'ase.*

Rory J. Respicio, General Manager
